

# Tech & SaaS - 50 Prospects

37 of 50 companies have a named decision maker. 30 have that person's own LinkedIn profile linked. Emails: only published addresses are printed, marked 'general inbox'. Personal emails are not published anywhere, so each decision maker has a box to type one in once Apollo or Hunter confirms it. Handles are cleaned of the stray text in the old file but are unverified.

| #  | Company                                     | Decision maker                                                                            | LinkedIn                                                                                                                | Email                               | Handle        | Category            | What They Do                      | Pain Signal / Opportunity                              |
