THE RANGE

Product naming and colourways
Two models, eight frames, all in titanium.

NAMING SYSTEM

VXIII is two models in five colourways. The models carry the shape and the colourways carry the salt. Every frame is titanium, with polarised lenses and full UV400 protection.

PART	RULE	EXAMPLE
Form number	Each model takes a two digit number in the order it joined the range.	01 Navigator, 02 Butterfly
Model name	The shape, named plainly and in one word.	Navigator
Colourway name	A salt, taken from the stages and kinds of salt making. The name carries one finish and one lens.	Fleur, Gris, Noir, Rose, Ambre
Product name	Form number followed by the colourway.	01 Fleur
Full title	The product name, the model, and the finish and lens in capitals.	01 FLEUR · NAVIGATOR · POLISHED SILVER TITANIUM · CLEAR GREY LENS
Engraving	VXIII, written as one word, on the inner face of the temple with the first line of the verse.	VXIII · Ye are the salt of the earth

The Navigator is made for men and the Butterfly for women. Each model is offered in four colourways, which makes eight frames in the range. Fleur, Ambre and Noir appear on both models. Gris belongs to the Navigator and Rose belongs to the Butterfly.

COLOURWAY LOGIC

The five names follow the making of salt, from the first crystal on the pan to the smoke that finishes it. Each name carries one finish and one lens, so the name is enough to describe the product.

NAME	SALT	MEANING FOR THE PRODUCT	MADE FOR
Fleur	Fleur de sel, the first and finest crystals off the pan.	The first crystal on the surface. Polished silver titanium with a clear grey lens that keeps every colour true.	Everyday, and the first frame to choose.
Gris	Sel gris, grey salt raked from the clay of the pan.	Grey salt raked from the clay. Brushed gunmetal titanium and a smoke lens for a quieter hour of the day.	Overcast light and long days outdoors.
Noir	Black lava salt, salt marked by fire.	The darkest salt and the deepest finish. Matte black titanium and a deep grey lens for full glare.	Hard midday sun and open water.
Rose	Rose rock salt, coloured by the mineral in the water.	Salt coloured by the water that made it. Rose gold titanium with a soft amber lens that warms the face.	Warm light and the hours around dusk.
Ambre	Smoked salt, finished over a slow fire.	Salt finished over smoke. Warm gold titanium and a rich amber lens, made for the lowest and brightest sun.	Low sun, haze and travel.

SPECIFICATION COMMON TO EVERY FRAME

ITEM	SPECIFICATION
Material	Titanium, in every frame, for men and women.
Finish	Polished, brushed or matte, with colour applied by anodising or by PVD coating where the finish requires it.
Lenses	Polarised, with full UV400 protection, in a single tint per frame.
Engraving	VXIII and the first line of the verse, on the inner face of each temple.
Construction	One fine line of titanium wire around each lens, a fine bridge and plain temples.
In the box	A hinged Deep Brine box, a leather pouch with a gold titanium clip, a microfibre cloth, a care card, and two handwritten notes: a certificate of authenticity and a note from the founder. A hang tag with the care lines is tied to the clip.

The dimensions of each model are set in the frame construction specification.

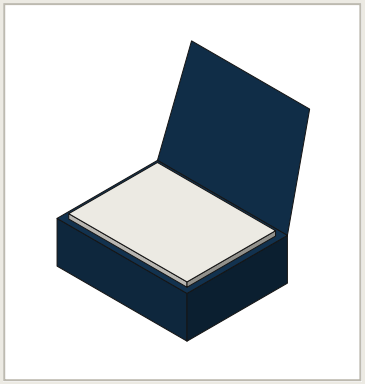

WHAT ARRIVES WITH EVERY FRAME

Each frame is packed in a hinged box in Deep Brine and gold. The box opens in five movements, and the full construction is set out in the packaging document.

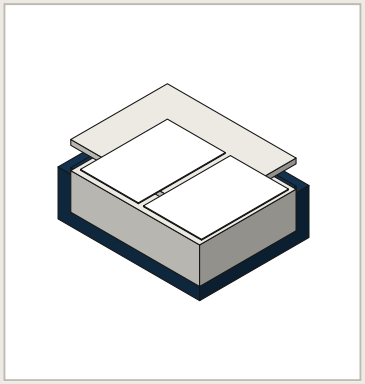

1. The cover

Deep Brine cloth with the pan and cube pattern and a small gold wordmark.

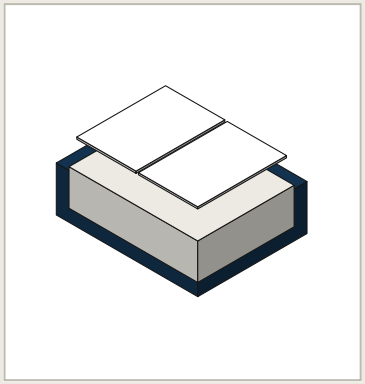

2. The inner lid

A blue lid carrying a single gold cube.

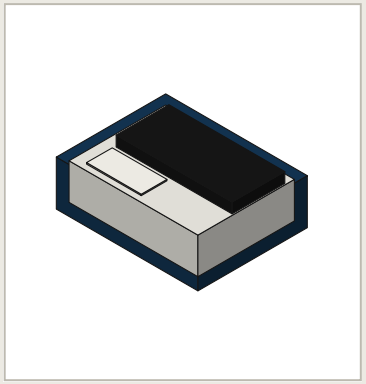

3. The notes

Two handwritten notes in the first layer.

4. The frame

The pouch and the cloth in the second layer.

5. The pouch

A gold clip opens it and the frame slides out.
