PACKAGING

The box, the pouch, the cloth and the two notes. Everything a VXIII frame arrives in.

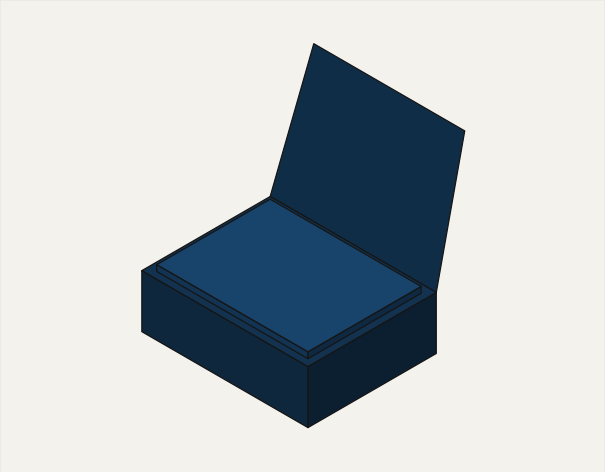

DIRECTIONS CONSIDERED

Three constructions were weighed against one requirement: the box has a cover, a box beneath it, a first layer that holds the notes, and a second layer that holds the pouch, the frame and the cloth.

A. Sleeve and drawer

A sleeve slides off and a drawer slides out. Neat and quick to open, but the drawer shows its whole contents at once, so the layers cannot be revealed one at a time.

B. Hinged cover and inner box

Chosen. A hinged cover opens onto a second box with its own lid. Each opening reveals one thing in order: the pattern, the crystal, the words and the frame.

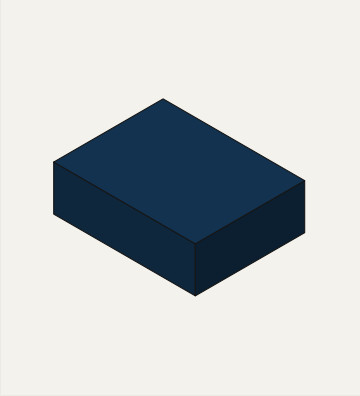

C. Lift-off lid

A single lid lifts off a base. The simplest and the most common, which is why it carries the least meaning and makes the least of the story.

TEST	A. SLEEVE AND DRAWER	B. HINGED COVER AND INNER BOX	C. LIFT-OFF LID
Reveals in sequence	No	Yes, four stages	Two stages
Carries the pattern and the crystal	Sleeve only	Cover and inner lid	Lid only
Holds the notes and the pouch separately	Awkward	Yes, two layers	Yes, but loosely
Closes without tape or glue	Yes	Yes, magnetic	Yes

THE UNBOXING SEQUENCE

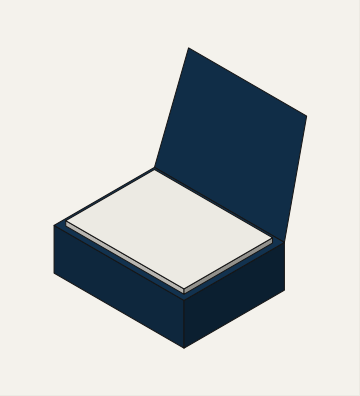

The box is opened in five movements, and each one reads as a stage in the making of salt: the pan, the crystal, the words, the product and the savour.

1 The cover

A deep blue box carrying the salt crack pattern, tone on tone, and a small gold wordmark.

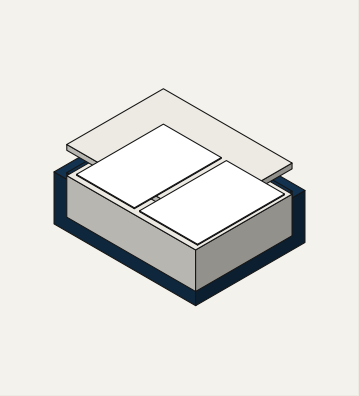

STAGE: THE PAN

2 The inner lid

The hinged cover opens and the blue lid shows a single gold cube.

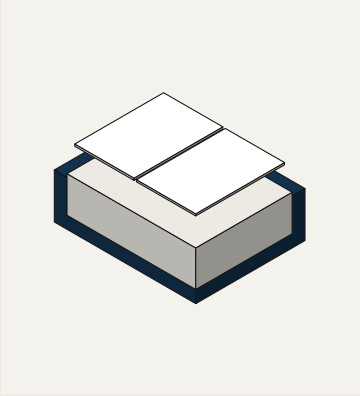

STAGE: THE CRYSTAL

3 The notes

The lid lifts and two handwritten notes lie in the first layer.

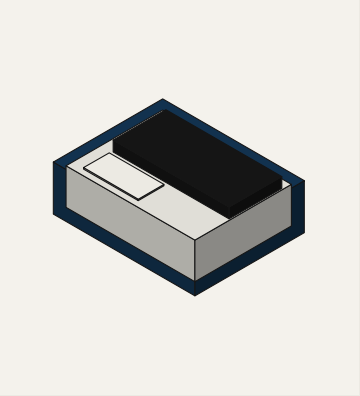

STAGE: THE WORDS

4 The frame

The first layer lifts out on a ribbon and the pouch lies in the second layer with the cloth and the care card.

STAGE: THE PRODUCT

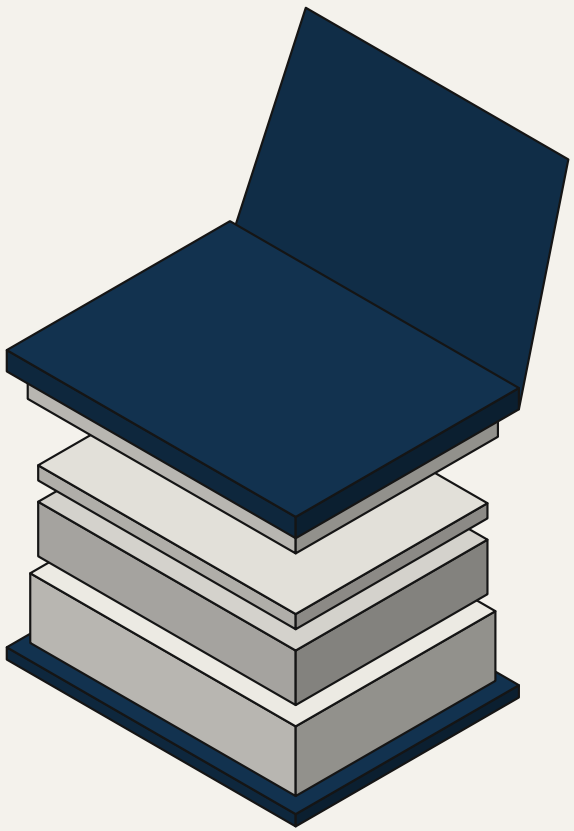

5 The pouch

The pouch is opened with the titanium clip and the frame slides out.

STAGE: THE SAVOUR

Magnets	Two neodymium discs 10 × 2 mm, one pair at each front corner, set in pockets under the wrap, polarity marked for assembly.
Recess	The cover is 14 mm deep, which receives the 4 mm by which the inner box stands proud and leaves 1 mm of clearance.

THE COVER

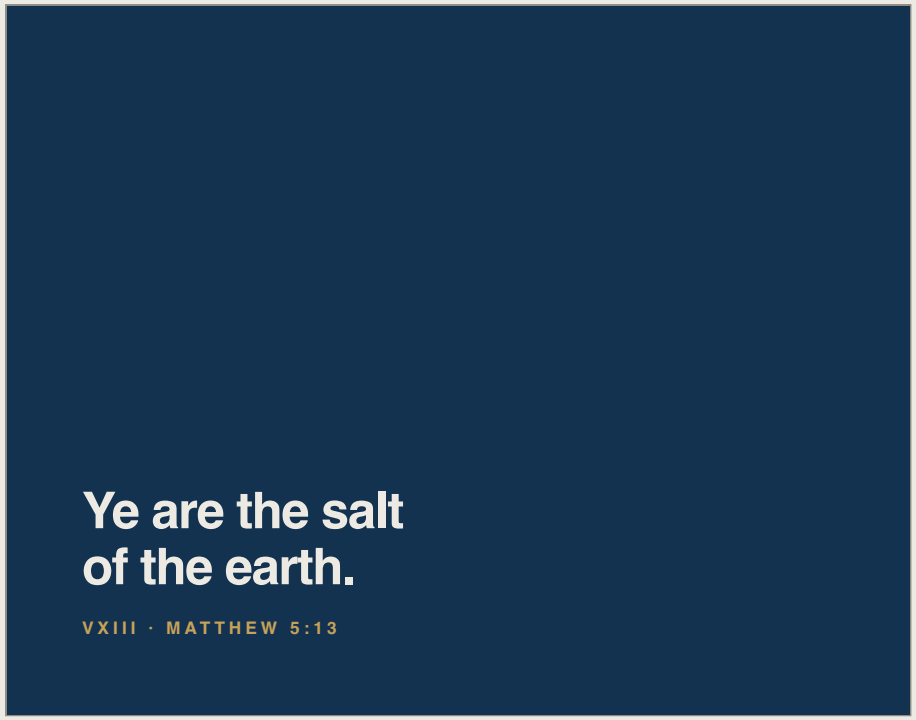

The cover carries the salt crack pattern, the cracked crust of a salt flat as it dries, drawn in single fine lines. It is debossed tone on tone so that it is felt before it is seen, and it runs unbroken across the whole face. The wordmark sits directly on it in matt gold, small, with nothing framed or cleared for it, so it does not shout.

THE FIRST LAYER, THE NOTES

Two notes lie side by side in recessed pockets beneath a gold ribbon pull. The left is the certificate of authenticity and the right is a note from the founder. Both carry the cube pattern behind the text at a very low opacity.

VXIII

Certificate of authenticity

This frame is a genuine VXIII. The wordmark and the verse are engraved inside the temples, and the size and the product name follow them. A frame without that engraving is not ours.

To you who opened this,

VXIII is a verse, Matthew 5:13, and the verse says you are the salt of the earth. Salt keeps what it touches and gives its savour quietly. I made this frame in that spirit, in titanium, with one fine line and the verse engraved where only you will see it.

Wear it in the hardest light and keep it for years. Keep your savour.
