One verse before the light

VXIII is one word and one reference, Matthew 5:13. The verse says you are the salt of the earth, and the next verse says you are the light of the world. We make the frame you wear into it.

Two models, eight salts

Halite is made for men and Fleur for women. Each comes in four colourways, and each colourway is named for a salt that exists.

02 THE TWO MODELS

HALITE

MEN · RIMLESS · 57 ▫ 19 145

Rock salt, the cube cut from the earth. A rimless frame whose lens edge is bevelled and polished, so a fine white line runs round each lens like salt at the edge of a drying pan. Titanium appears only in small cube mounts, the bridge and the temples.

Four colourways: Lava, Brine, Smoke and Uyuni.

FLEUR

WOMEN · CAT EYE · 56 ▫ 17 140

Fleur de sel, the first and finest crystals skimmed from the surface of the pan. A cat eye in fine titanium wire whose lifted corner carries the stepped square of the hopper crystal, repeated at the end of each temple.

Four colourways: Guérande, Alaea, Retba and Kala.

COLOURWAY	THE SALT BEHIND THE NAME
Halite Lava	Black lava salt, sea salt blended with activated charcoal.
Halite Brine	The green of a brine pond, coloured by algae as the water concentrates.
Halite Smoke	Smoked salt, sea salt finished over a wood fire until it turns brown.
Halite Uyuni	The salt crust of the Salar de Uyuni, the largest salt flat on earth.
Fleur Guérande	Fleur de sel from Guérande in France, skimmed from the pans by hand in the late afternoon.
Fleur Alaea	Alaea salt from Hawaii, sea salt mixed with red volcanic clay.
Fleur Retba	The salt of Lake Retba in Senegal, where algae turn the water pink.
Fleur Kala	Kala namak, the black salt of South Asia, fired in a kiln until the rock turns dark.

03 PRODUCT PAGES, HALITE

HALITE LAVA

HALITE LAVA · MATTE BLACK TITANIUM · GREY POLARISED LENS

Halite in matte black titanium. A rimless frame whose lens edge is bevelled and polished, so a fine white line runs round each lens like salt at the edge of a pan. Grey polarised lens.

Lens	57 x 46 mm, polarised, UV400
Bridge and temple	19 mm and 145 mm
Front and weight	136 mm, about 16 g
Engraved inside	Left: VXIII, the verse, 57 □ 19 145. Right: Keep your savour

HALITE BRINE

HALITE BRINE · POLISHED GOLD TITANIUM · GREEN POLARISED LENS

Halite in polished gold titanium with a green polarised lens, the green of a brine pond as the water concentrates. Rimless, with the salt line round each lens.

Lens	57 x 46 mm, polarised, UV400
Bridge and temple	19 mm and 145 mm
Front and weight	136 mm, about 16 g
Engraved inside	Left: VXIII, the verse, 57 □ 19 145. Right: Keep your savour

HALITE SMOKE

HALITE SMOKE · BRUSHED BRONZE TITANIUM · BROWN POLARISED LENS

Halite in brushed bronze titanium, with tortoise acetate at the temple ends and a brown polarised lens. Named for sea salt smoked over a wood fire.

Lens	57 x 46 mm, polarised, UV400
Bridge and temple	19 mm and 145 mm
Front and weight	136 mm, about 17 g
Engraved inside	Left: VXIII, the verse, 57 □ 19 145. Right: Keep your savour

HALITE UYUNI

HALITE UYUNI · BRUSHED GUNMETAL TITANIUM · GREY POLARISED WITH A SILVER MIRROR LENS

Halite in brushed gunmetal titanium with a grey polarised lens and a silver mirror. Named for the salt flat of Uyuni, where the crust breaks into hexagons.

Lens	57 x 46 mm, polarised, UV400
Bridge and temple	19 mm and 145 mm
Front and weight	136 mm, about 16 g
Engraved inside	Left: VXIII, the verse, 57 □ 19 145. Right: Keep your savour

04 PRODUCT PAGES, FLEUR

FLEUR GUÉRANDE

FLEUR GUÉRANDE · POLISHED GOLD TITANIUM · BROWN GRADIENT POLARISED LENS

Fleur in polished gold titanium with a brown gradient lens. The lifted corner carries the stepped square of the hopper crystal. Named for the fleur de sel of Guérande.

Lens	56 x 47.5 mm, polarised, UV400
Bridge and temple	17 mm and 140 mm
Front and weight	138 mm, about 18 g
Engraved inside	Left: VXIII, the verse, 56 □ 17 140. Right: Keep your savour

FLEUR ALAEA

FLEUR ALAEA · ROSE GOLD TITANIUM · COPPER GRADIENT POLARISED LENS

Fleur in rose gold titanium with red tortoise acetate at the temple ends and a copper gradient lens. Named for the Hawaiian salt coloured by red clay.

Lens	56 x 47.5 mm, polarised, UV400
Bridge and temple	17 mm and 140 mm
Front and weight	138 mm, about 19 g
Engraved inside	Left: VXIII, the verse, 56 □ 17 140. Right: Keep your savour

FLEUR RETBA

FLEUR RETBA · CHAMPAGNE TITANIUM · ROSE GRADIENT POLARISED LENS

Fleur in champagne titanium with a rose gradient lens. Named for the salt of Lake Retba in Senegal, where the water turns pink.

Lens	56 x 47.5 mm, polarised, UV400
Bridge and temple	17 mm and 140 mm
Front and weight	138 mm, about 18 g
Engraved inside	Left: VXIII, the verse, 56 □ 17 140. Right: Keep your savour

FLEUR KALA

FLEUR KALA · MATTE BLACK TITANIUM · GREY GRADIENT POLARISED LENS

Fleur in matte black titanium with a grey gradient lens. Named for kala namak, the black salt of South Asia.

Lens	56 x 47.5 mm, polarised, UV400
Bridge and temple	17 mm and 140 mm
Front and weight	138 mm, about 18 g
Engraved inside	Left: VXIII, the verse, 56 □ 17 140. Right: Keep your savour

05 THE SHARED BLOCK ON EVERY PRODUCT PAGE

BLOCK	COPY
Intro under the title	The sun that dries the pans is the light you walk into. Meet it with something that holds its edge.
Features	Built on titanium, with almost no weight. Polarised lenses with full UV400 protection. The verse engraved inside the temple. A promise written as a covenant.
In the box	A hinged box in Pan Blue and gold, carried in a plain paper cover. Inside are a rigid leather case with a carry loop, a microfibre cloth, a care card and two handwritten notes: a certificate of authenticity and a note from the founder.
Fit note, Halite	Front width 136 mm. Suits a face width of about 130 to 142 mm.
Fit note, Fleur	Front width 138 mm. Suits a face width of about 132 to 144 mm.

BLOCK	COPY
Shipping line	Tracked delivery worldwide, in a plain paper cover. Duties and taxes are shown at checkout.
Returns line	Fourteen days to decide. Twelve months of warranty.
Care line	Rinse in clean water, dry with the cloth and keep it in its case.
Add button	Keep this frame
Sold out	This frame is not available at present. Leave your address and we will write when it returns.

06 CARE

Titanium does not rust and it keeps its shape. A little attention keeps the finish as it was on the day it arrived.

STEP	COPY
Rinse	Rinse the frame in clean, cool water after salt water, sweat or sand, and dry it with the cloth supplied.
Clean the lenses	Breathe on the lens and wipe it with the cloth, using no pressure. Use a drop of mild soap for marks that remain.
Store	Fold the temples and close the frame in its case, lenses toward the lining. Keep it away from the dashboard of a car.
Avoid	Solvents, hot water and paper towels. Each of them can mark a lens or a finish.

NOTE	COPY
Halite	Halite is rimless. Hold it by the temples or the mounts, never by the lens, and put it down with the lenses facing up.
Fleur	Hold Fleur by the temples. The stepped corner is polished sharp, and a soft cloth keeps its edges bright.
Acetate ends	Halite Smoke and Fleur Alaea finish in acetate. An optician can warm and set these ends to the shape of your ear.
Adjusting the fit	Titanium can be adjusted by an optician. Ask for the nose pads and the temples to be set to your face, without heat on the titanium, since heat can mark the colour.
The finishes	Polished finishes show fine marks in strong light, and these soften with wear. Brushed and matte finishes keep a uniform surface.

07 QUESTIONS

QUESTION	ANSWER
What is VXIII?	One word and one reference, Matthew 5:13. The verse says you are the salt of the earth.
What are the frames made of?	Titanium carries the structure of every frame. Halite Smoke and Fleur Alaea finish their temples in tortoise acetate. Colour is applied to the titanium by PVD coating.
Are the lenses polarised?	Yes. Every lens is polarised and blocks ultraviolet light up to 400 nm.
Can I have prescription lenses fitted?	Not at present. The Halite lens is drilled to its mounts and the Fleur lens is cut to its rim, so each frame is made for the lens it carries.
Which model should I choose?	Halite is made for men and Fleur for women. Choose by the front width that suits your face, 136 mm for Halite and 138 mm for Fleur.

QUESTION	ANSWER
How do I know a frame is genuine?	Look inside the temples. The left carries the wordmark, the verse and the size, and the right carries Keep your savour. The certificate in the box carries the product name and the number.
What if it does not fit?	You have fourteen days from delivery to return it. See the covenant.
What if it breaks?	The frame is covered for twelve months against defects in materials and making, and we repair what is repairable.
Where do you ship?	Worldwide, with tracked delivery.
Why salt?	Salt keeps what it touches and changes everything it is added to. We built the frames in the same spirit.

08 THE COVENANT

Scripture calls a lasting promise a covenant of salt (Numbers 18:19). This is what we promise, in writing.

Clause I. Built on titanium

Titanium carries the structure of every frame, for men and for women. It carries almost no weight, does not rust and holds its shape through every season.

Clause II. Full protection

Every lens is polarised and blocks ultraviolet light up to 400 nm, on every frame and at every price.

Clause III. Genuine

Every frame is engraved inside the left temple with the wordmark, the verse and the size, and inside the right temple with Keep your savour. Every box carries a certificate of authenticity numbered and signed by hand.

Clause IV. Fourteen days to decide

If the frame is not yours, return it within fourteen days of delivery, unworn and in its box with the notes, the case and the cloth. We refund the price of the frame once it reaches us. Returns for a reason other than a defect are made at the buyer's cost.

Clause V. Twelve months of warranty

Every frame is covered for twelve months from delivery against defects in materials and making. The warranty does not extend to loss, accidental damage, scratches that come from wear, or alterations made by anyone but us.

Clause VI. Repair and adjustment

We adjust the fit of any frame at no charge for as long as you keep it. Once the warranty has ended, we repair what can be repaired at a fair price.

Clause VII. Delivery

Orders ship within three working days with tracked delivery. Duties and taxes, where they apply, are shown at checkout and are paid by the buyer.

Clause VIII. Honest dealing

We state what a frame is made of and what it does. If we make a mistake with your order, we correct it and we say so.

09 RETURNS AND WARRANTY IN PRACTICE

STEP	TO RETURN A FRAME WITHIN FOURTEEN DAYS
01	Write to us through the contact page with your order number.
02	Close the frame in its case and pack it in its box with the notes and the cloth.
03	Send it with tracking to the address we give you.
04	We check the frame and refund the price of the frame within seven days of receiving it.

STEP	TO MAKE A WARRANTY CLAIM WITHIN TWELVE MONTHS
01	Write to us with your order number and a photograph of the fault.
02	We tell you within three working days whether the fault is covered.
03	We repair the frame or replace it with the same frame, and we pay for the delivery.
04	We return it in its box, with a note describing what was done.

THE REFUND PERIOD, THE WARRANTY TERM AND THE SHIPPING TIME ABOVE ARE THE TERMS WE WORK TO. WHERE THE LAW OF YOUR COUNTRY GIVES YOU MORE, THE LAW APPLIES.

10 MESSAGES

ORDER CONFIRMATION

Your order is confirmed.

Thank you for your order. Your frame is being prepared by hand, and its number is written on the certificate that travels with it. We will write again when it leaves us.

SUBJECT: YOUR ORDER IS CONFIRMED

SHIPPING

It has left us.

Your frame is on its way with tracked delivery. When it arrives, tear the seal and slide the box from its paper cover. There are two notes inside, and the first is for you.

SUBJECT: IT HAS LEFT US

CARE, SEVEN DAYS AFTER DELIVERY

Care for titanium.

A few lines on keeping the finish as it arrived. Rinse the frame after salt water and keep it in its case. If the fit needs adjusting, an optician can set it to your face.

SUBJECT: CARE FOR TITANIUM

NEW FRAME

Fleur is here.

A cat eye in fine titanium wire, with the stepped square of fleur de sel at its corner. Four colourways: Guérande, Alaea, Retba and Kala.

13 THE TWO NOTES

Certificate of authenticity

This frame is a genuine VXIII. The wordmark, the verse and the size are engraved inside the left temple, and Keep your savour inside the right. A frame without that engraving is not ours.

PRODUCT · NUMBER · SIGNED, BY HAND

A note from the founder

To you who opened this,

VXIII is a verse, Matthew 5:13, and the verse says you are the salt of the earth. Salt keeps what it touches and gives its savour quietly. I made this frame in that spirit, built on titanium and drawn from the way salt is formed, with the verse engraved where only you will see it.

Wear it in the hardest light and keep it for years. Keep your savour.
